

Attracting Tomorrow

Increase Productivity & Reduce Administration Costs

Engineering managers, streamline your supply chain and reduce system costs by partnering with TDK-Lambda for turnkey power solutions as High-Level Assemblies (HLAs). Don't compromise reliability or time-to-market by entrusting power design to suppliers lacking the essential program management and engineering expertise.

Choose TDK-Lambda as your power partner to lower costs without compromising quality. Our Value-Add Solutions, backed by over 70 years of power expertise and rigorous Quality Management, accelerate project development. Leverage our expertise early in your design cycle!
