Make Some Waves!

Z+ Series -

200W to 800W Programmable Power Supplies

As test equipment user, you know storing your routines is a huge timesaver, but don't know where to look?

Select TDK-Lambda's Z+ series, using the Z+ Waveform Creator application, custom profiles can be easily designed for burn-in, test, laser diodes, heater supplies, RF amplifiers and magnet applications.

Quickly create and then store the profiles using the built in USB, RS-232 and RS-485, or via the optional LAN and GPIB interfaces.

Get started today, chose from a wide selection of Z+ models and install the free software.

- Create Sine, Triangular & Square Waveforms
- Easily Load and Store 10 Profiles
- Up to 99 Memory Segments Available
- Graphical Display
- Output Voltages up to 650V
- Output Currents up to 72A

For more information on how TDK-Lambda can help you power your unique applications, visit our web site at www.us.lambda.tdk.com or call 1-800-LAMBDA-4
