

Attracting Tomorrow

3kW programmable power supplies for industrial applications.

Check out the new HWS3000G and HWS3000GT series of industrial 3kW programmable power supplies offering constant voltage and constant current operation with single or three-phase inputs

HWS3000G & HWS3000GT Series

- Serial or Analog Programming (CV/CC)
- Series and/or Parallel Operation
- Compact 10.6 x 5.9 x 2.4" Footprint
- Single and Three Phase AC Input Models
- Choice of Programming Interfaces
- Programmable Slew Rate
- Output Voltage Models 24V, 48V, 60V & 130V
- Five Year Warranty
